

Michael D. Rostocil

Summary of Qualifications

Mr. Rostocil is a dynamic and focused professional with proven leadership in timely and successful completion of projects that covers project controls, planning, maintenance supervision, training, quality assurance, quality control, and construction for a broad range of areas including nuclear, fossil, commercial and governmental facilities.

Professional Synopsis

03/10 to 06/17/11 Portsmouth Gaseous Diffusion Plant D&D Project Lead Scheduler/DBA

- Responsible for the development and management of a multibillion dollar Port Federal Baseline/Schedule for the Portsmouth Decontamination and Decommissioning Project using Primavera P6v7 and Cobra 5.0, which includes baseline/schedule development, resource loading, earned value, planning, schedule upgrades, maintaining the P6 data base and providing progress status reports.

06/08 to 02/10 National Enrichment Facility / Urenco USA Lead Scheduler/ DBA

- Assigned as the Lead Scheduler and Primavera Data Base Administrator on the construction of a \$ 2.2 billion dollar Uranium Enrichment Project. On this assignment, I've supervised up to 15 people and performed the following tasks: successfully implement the use of Primavera for Enterprise and P6v2.1, streamlined the weekly reporting cycle by using standardized reporting and updating techniques. Implement project controls using earned value management system throughout the project and successfully integrating all subcontractor schedules into the Integrated Project Schedule.

06/06 to 05/08 Ameren U/E Inc. Lead Scheduler

- As the Project Control Coordinator/Scheduler; I provided support to Ameren GTS Management to develop and manage the comprehensive integrated schedules for maintenance, engineering and procedure development projects using Primavera P5/6. Tasks included resource loading, planning, scheduling and providing daily/weekly progress reports to management.

11/05 to 5/06 Intel Inc. Senior Scheduler

- Responsible for the development of the daily/weekly construction schedule for the C4 Flex Tool up-grade projects using Primavera P5. Attended daily and weekly planning & scheduling meetings to provide guidance and input for the master schedule. Manage schedule variances, verify progress, and communicate potential problems to Intel management.

08/04 to 11/05 Los Alamos National Laboratory Senior Scheduler

- Responsible for the Integrated Project Schedule (IPS) development utilizing Primavera 4.1 and Indus Passport for LANL engineering, construction, maintenance, ESA and DX divisions daily activities. Coordinated daily and weekly meetings to provide guidance and input to the FMD-5 master schedule.

Continued Professional Synopsis

05/04 to 07/04 DHL Worldwide Express Senior Instructional Designer

- Provided staff support to develop web based training for DHL clientele to instruct them in the proper procedures for shipping products domestically and internationally. Developed detailed illustrated user guides for DHL training personnel.

08/03 to 04/04 D.C. Cook Nuclear Plant - American Electric Power Senior Instructional Designer

- Provided staff support for the maintenance, technical & engineering training recovery project. Reviewed and edited course material and exam banks in accordance with Instructional System Design methodology, and provided classroom instruction for task specific qualification of maintenance, technical and engineering staff personnel.

10/02 to 08/03 Erudite Technical Services Inc. Project Manager

- Provided project coordination and cost estimating for the scheduling, design and development of interactive electronic technical documentation and guidelines for installation, startup procedures, and quick reference guides. Designed and edited illustrated procedure manuals for various applications.

10/00 to 10/02 Walt Disney Company Project Control Coordinator

- Coordinated the scheduling and development of training, maintenance and operation procedures for Disneyland Resort Facilities Engineering & Construction Department as required by California ride legislation. Performed task analysis to determine training requirements for operations, maintenance, safety, resort security, and quality control in accordance with ISD methodology, which included the development and editing of storyboards for computer based training.

08.99 to 10/00 Hanford Nuclear Reservation Senior Scheduler/Planner

- Provided scheduling support for the Spent Nuclear Fuel Project. Responsible for the coordination and development of the daily/weekly construction and maintenance schedules using Microsoft Project. Coordinated daily and weekly planning meetings to provide guidance and input for the master schedule. Managed schedule variances, verified project progress, and communicate potential problems to management.

3/96 TO 7/99 DCPP Nuclear Plant - Pacific Gas & Electric Senior Instructional Designer

- Provided support to resolve an Institute of Nuclear Power Operation (INPO) imposed probationary period for maintenance training. Performed needs analyses to set up a training hierarchy database for maintenance training using Visions software in accordance with Instructional Systems Design methodology. Developed and edited procedures and technical manuals for maintenance, engineering, and operations.

Continued Professional Synopsis

1/96-3/96 Conoco Refinery Project Control Coordinator

- Coordinated scheduling, development and cost estimating for the development of illustrated procedure manuals for online information systems and product development specifications. Developed the basic work breakdown structure (WBS) in P3 to schedule and track all new procedure development.

1/95-1/96 Fernald Closure Project Project Control Coordinator

- Coordinated the scheduling & development for the Thorium Overpacking Project, which included briefings, evaluation standards, procedures, and technical manuals for management, operations, and maintenance personnel. Created and edited detailed maintenance and operations procedures for robotics used during the thorium removal process.

8/94-1/95 Mount Holly Training Center - Duke Power Project Lead

- Coordinated the scheduling, development and editing of technical training materials for the McGuire and Catawba Nuclear Power Plants. Developed, edited and designed illustrated procedure manuals for program upgrades. Created and edited graphics and illustrations for use in electronic and hard copy manuals.

1/92-8/94 STP Nuclear Plant - Houston Light & Power Senior Instructional Designer

- Provided support to resolve an Institute of Nuclear Power Operation (INPO) imposed probationary period for maintenance training. Performed job task analyses to set up a training hierarchy database for mechanical maintenance disciplines. Developed, edited, and instructed technical and engineering training courses. Created and edited job performance measures for competency assessments of plant personnel.

2/88-12/92 Hunters Point Power Plant - Pacific Gas & Electric Senior Scheduler/Planner

- Planned and scheduled maintenance and construction activities for combined cycle natural gas units. Developed facility specific preventive maintenance, procurement and inventory control procedures. Implemented safety requirements and compliance issues related to construction and maintenance activities.

10/85- 2/88 Fermi Nuclear Plant - Detroit Edison Senior Instructional Designer

- Performed job task analyses to develop the training hierarchy database. Acted as the project coordinator for new program development team. Created and edited presentations for maintenance and operation personnel in accordance with Instructional System Design methodology. Developed and edited technical performance evaluations for competency assessments of staff personnel.

**08/79-10/85 Perry Nuclear Plant - Illuminating Company
Supervisor Specialist**

- Contract Administrator Maintenance Coordination
- Emergency Planning Nuclear Training Specialist
- Level II QC Inspector Planning and Scheduling
- Procedure Writing Construction Maintenance Scheduling

Training & Certifications

DOE 5480.20 Technical Instructor Certification
Earned Value Management
Electronic Data Management System (EDMS)
Indus Passport
Information Mapping
Institute of Nuclear Power Operation National Academy Instructor
Macromedia
Microsoft Project
Primavera Enterprise Basic & Advanced Certifications
Primavera Expedition Certification
Prism Project Manager
University of Wisconsin Instructor Certification
Vision Workforce Training and Performance Support System
Westinghouse Instructional Training Certification
